## How has the fund performed?

This section tells you how the fund has performed since inception. Returns are after expenses have been deducted. These expenses reduce the fund's returns.

It is important to note that this does not tell you how the fund will perform in the future. Also, your actual return will depend on your personal tax situation.

### Average return

As at August 31, 2011, a person who invested \$1,000 in this fund since it's inception now has \$1,501. This works out to an annual compound return of 4.8%.

### Year-by-year returns

This chart shows how the fund has performed during the past 7 calendar years. The fund produced a negative return in 2 of the past 7 years.

## How risky is it?

When you invest in a fund, the value of your investment can go down as well as up. MD Physician Services Inc. has rated this fund's risk as Medium to High.

For a description of the specific risks of this fund, see the fund's simplified prospectus.

## Are there any guarantees?

This fund is like most mutual funds and does not have any guarantees. You may not get back the amount of money you invest.

## Who is this fund for?

Investors who:

- Are looking for a fund that is suitable as a core International investment within a well diversified portfolio.
- Are seeking an investment pool that invests primarily in international stocks with a combination of fundamental value characteristics and strong growth prospects.
- Have an investment time horizon of over ten years as a stand alone pool.

**Before you invest in any fund, you should consider how it will work with your other investments and your tolerance for risk.**

## A word about tax

Generally, you will have to pay income tax on any money you make on a fund. How much tax you will pay depends on the tax laws where you reside, and whether or not the fund is held in a registered plan such as a Registered Retirement Savings Plan or a Tax Free Savings Account. Please keep in mind that if you hold the fund in a non-registered account, fund distributions are included in your taxable income whether they are taken as cash or re-invested.

## How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses are different for each series. Ask about other series that may be suitable for you.

### 1. Sales charges

There are no sales charges applicable to this fund.

### 2. Ongoing fund expenses:

The Fund series expenses are made up of the operating expenses and trading costs. This Fund does not charge a management fee, rather unitholders pay a scaled managed account fee based on assets under management, the maximum fee of which is 1.50%. The fund is charged a foreign advisory fee of 0.28%

You do not pay these expenses directly. They affect you because they reduce the return you get on your investment.

As of December 31, 2010, the fund's expenses were 0.38%. This equals \$3.80 for every \$1,000 invested.
